

MEDIA RELEASE

Lafarge UAE signs a long-term contract for Waste Heat Recovery

In line with our commitment and continued efforts towards sustainability, Lafarge UAE has recently signed an agreement, signaling the start of the Waste Heat Recovery Project in the region.

Olivier Milhaud, GM of Lafarge Emirates Cement says, “ *We've made a commitment to building a net zero future for our people and planet, and this is one of the major milestones in our journey towards sustainability.*”

Khaled Farrag, Plant Manager at Lafarge Emirates Cement,

“The Waste Heat Recovery project will help us deliver tangible progress on our environment and sustainability duties. By utilizing wasted energy we reduce our gas emissions while simultaneously sourcing more affordable energy. Definitely a win-win for business and environment “

“I am ambitious about this Waste Heat Recovery (WHR) project as a strategic move towards sustainability and performance excellence; it will help Lafarge Emirates Cement to strengthen its competitiveness in the market and in alignment with the net-zero strategy, aiming for the reduction of the carbon footprint.” - [SHERIF SALAH](#), Head Of Maintenance & WHR Project Manager, Lafarge Emirates Cement

This project is one of the many steps that we as Lafarge Emirates Cement, are taking towards our Sustainability Goals, and our vision of building a net zero future for people and the planet. To know more about what we do, please visit
