

Lafarge UAE signs a long-term contract with Emarat for Natural Gas

In line with our commitment and continued efforts towards sustainability, Lafarge UAE has recently signed an agreement with Emarat, signaling the start of the Natural Gas Project in the region.

Olivier Milhaud, GM of Lafarge Emirates Cement says, “ *Our recent tie-in with Emarat is an important milestone in our efforts towards reducing carbon emissions and encouraging the use of a clean and environment-friendly energy in our operations. We believe that this cooperation with Emarat will contribute to support the UAE’s journey towards mitigation of climate change and net zero carbon*”

Sajin Radhakrishnan, Head of Procurement at Lafarge Emirates Cement, “*We are happy to join hands with Emarat Gas for the supply of Natural gas to our plant. Natural gas is a cleaner energy source and a nod in the direction of Holcim’s sustainability target as well*”

as UAE's vision to reduce carbon footprint. As Lafarge Emirates Cement LLC, I am always proud to say that we are committed to reducing CO2 emissions."

This project is one of the many steps that we, as Lafarge Emirates Cement, are taking towards our Sustainability Goals, and our vision of building a net zero future for people and the planet. To know more about what we do, please visit
